## Tradition. Passion. Quality. Design.

We are FunderMax – an Austrian company steeped in tradition. Just like the raw materials we work with – we have grown organically too - from a small family business into a top international player. Our roots are in wood processing, with a product portfolio featuring the highest quality materials made from wood and laminates. As such, we see ourselves as experts.

We're constantly developing. Pushing ourselves to set the pulse and be a trendsetter for all of our customers in both industrial and private sectors. We're just as committed to our employees too. Our ultimate goal is to inspire through our designs, and to convince by delivering sustainable value.

We are FunderMax. A company that creates the future, today.
